

Chapter 1: Significant Animal Health Events in 2009

Bovine Tuberculosis

Cattle Fever Tick

Contagious Equine Metritis

Equine Piroplasmiasis

H1N1 Influenza Pandemic

U.S. Animal Health Response

Very Virulent Infectious Bursal Disease

Vesicular Stomatitis

Foreign Animal Disease Surveillance and Investigations

Chapter 2: Prevention and Preparedness

Trade Imports and Exports

National Veterinary Accreditation Program

Emergency Planning and Preparedness

Animal Health Response Corps

2009 Animal Health Emergency Management Highlights

Response Planning Update

National Veterinary Stockpile

National Response Preparedness Exercises

Depopulation, Disposal, and Decontamination Collaboration

Chapter 3: Animal Disease Surveillance and Management

Aquaculture

Cattle and Cervids

Chronic Wasting Disease

Johne's Disease in Cattle

Tuberculosis in Cattle and Cervids

Poultry

Sheep and Goats

Swine

Chapter 4: Diagnostics, Veterinary Biologics, and Disease Reporting

National Veterinary Services Laboratories Highlights

2009 Center for Veterinary Biologics Highlights

National Animal Health Laboratory Network

2009 NAHLN Highlights

Disease Reporting

2009 NAHRS Highlights

Chapter 5: Small Enterprise Production

Beef Cow-Calf Operations

Goats
